MUHAMAD TABRIZ AL FARABY

Informatics Engineering Student | Backend Web Development, Live Broadcast Systems & Event Operations

Surabaya | +62 812-5982-9109 | tabriz.alpha@gmail.com | linkedin.com/in/tabriz-af | github.com/TzTypeC | tztypec.github.io

SUMMARY

D3 Informatics Engineering student at PENS with hands-on experience in backend web development, live broadcast operations, and end-to-end event management. Led an inter-class esports tournament from concept to grand final, operated 1080p60 OBS broadcasts for PMCC PENS 2026, mentored 20+ students in C++, and built REST APIs with Node.js, Next.js, PostgreSQL, and Redis.

EDUCATION

Electronic Engineering Polytechnic Institute of Surabaya (PENS) — Surabaya, East Java — Jun 2026 – Present

Associate Degree (D3) in Informatics Engineering

- Relevant Coursework: Logic and Algorithms (C, stack and queue), Programming Concepts (C), Web Design Workshop (HTML5, CSS3, Bootstrap 5, JavaScript), Introduction to Information Systems.

SMA Negeri 3 Jombang — Science Stream, Informatics Elective | Jombang, East Java — Jul 2022 – May 2025

EXPERIENCE

Event Organizer Staff & RnD Subdivision Member — PENS Esports, Surabaya — Oct 2026 – Present

- Supported campus-level execution of PMCC PENS Campus Qualifier 2026 under the central organizer's rulebook and rundown, coordinating with the Broadcasting, Media, and League Ops teams.
- Drafting the initial training curriculum for the new RnD subdivision, supporting PENS Esports' bid for official UKM status.

Broadcaster (Technical Broadcast Operator) — PMCC PENS Campus Qualifier 2026, Surabaya — Oct 2026

- Operated 1080p60 live production in OBS Studio (scene switching, live browser overlays) for 8 matches across the online qualifier (Oct 18) and offline grand final (Oct 24) with 25 registered PENS teams.

Head of E-Sports Division (Alumni Committee) — Glassco10 Classmeet, SMA Negeri 3 Jombang — Jan 2026

- Led the inter-class Mobile Legends (MLBB) tournament end-to-end: concept, rundown, rulebook, team registration, and BO1/BO3/BO5 brackets, while delegating referee and match-admin roles to division staff.

Head of Coding Division — KOKPIT IT Club, SMA Negeri 3 Jombang — Aug 2022 – Oct 2024

- Designed the C++ competitive programming syllabus and taught 20+ students as the main trainer in weekly 2–4 hour sessions (up to 3x a week before OSN), plus introductory Arduino and web modules.

PROJECTS

PMCC 2026 Live Broadcast Overlay — System Integrator — Oct 2026

TypeScript, React, Fastify, WebSocket, OBS Studio | github.com/TzTypeC/chicken-dinner-feed

- Customized an open-source broadcast overlay platform with AI assistance: expanded capacity from 16 to 25 teams, added a Manual Mode failover for telemetry outages, and built 8+ PMCC-branded 1080p60 OBS overlay routes.

BASCOM Alumni Network (Backend Prototype) — Project Manager & Sole Backend Developer — Jun 2025 – Feb 2026

Node.js, Express.js 5, PostgreSQL, Prisma ORM, Redis, JWT | github.com/TzTypeC/BASCOM

- Led a two-person team as PM and built the entire backend: REST API with an 11-model Prisma schema, Redis caching, JWT refresh-token rotation with reuse detection, and NIS plus Jaro-Winkler fuzzy-name identity verification.

Glassco10 Esports Overlay & Videotron Automation — Lead Developer — Dec 2025 – Jan 2026

JavaScript, Bun, Elysia, WebSocket, Moonton Public API | github.com/TzTypeC/mlbb-overlay-tournament

- Built a WebSocket control panel driving the main-stage Videotron overlay (manual scoreboard and draft pick) and integrated the Moonton Public API to auto-render post-game statistics.

BBO Token System (License Token REST API) — Solo Backend Developer — May 2025 – Nov 2025

Next.js, TypeScript, Prisma ORM, PostgreSQL, Vercel | github.com/TzTypeC/BBO-Token-sys

- Built and deployed a license-token REST API with 4 endpoints (user creation, token generation with optional expiry, device-bound validation, client version check), migrating it from Express.js to Next.js API Routes on Vercel.

ACHIEVEMENTS & ACTIVITIES

- **Participant, GDG I/O Extended & GDG NEXT Surabaya 2026** — Google Developer Groups Surabaya — Aug – Sep 2026
- **Top 50 National Finalist, ISE! BIONIX 2024** — Business & IT Olympiad, ITS — Sep 2024
- **1st Place Regency & 6th Place East Java, FLS2N Short Film 2024** — Puspresnas — Apr – Jun 2024
- **Provincial Finalist (OSN-P) & 5th Place Regency, OSN Informatics 2024** — Puspresnas — Apr – May 2024

SKILLS

Programming & Web: JavaScript (ES6+), TypeScript, C, C++, HTML5, CSS3, Bootstrap 5, Node.js, Bun, Express.js, Elysia, Next.js, React, REST API, WebSocket

Databases, IoT & Tools: PostgreSQL, Prisma ORM, Redis, Git & GitHub, Vercel, Figma, Arduino, ESP32, Home Assistant, AI/LLM workflow automation

Broadcast & Event Tech: OBS Studio (1080p60), browser-source overlays, ADB scrcpy, audio routing, Resolume Arena

Leadership & Languages: End-to-end event planning, team delegation, curriculum design, technical mentoring | Indonesian (native), English (intermediate, B1)
